Catalysts — Open Access Catalysis Journal

Catalysts (ISSN 2073-4344; CODEN: CATAJC) is an open access journal of catalysts and catalyzed reactions published monthly online by MDPI.

- **Open Access**: free for readers, with publishing fees paid by authors or their institutions.
- **High Visibility**: indexed by the Science Citation Index Expanded (Web of Science), Scopus and other databases.
- **Rapid publication**: Manuscripts are peer-reviewed and a first decision provided to authors approximately 28 days after submission; acceptance to publication is undertaken in 3 days (median values for papers published in this journal in 2016).

**Latest Articles**

**Aqueous and Surface Chemistry of Photocatalytic Fe-Doped CeO2 Nanoparticles**
by Duangsee Chemnel, Sunyon Phanitchayaporn, Auppattam Nakank, Sajad S. Mobahar, Pramod Korny and Charles C. Busek
Catalysts 2017, 7(2), 45. doi:10.3390/catal7020045 (registering DOI) - 29 January 2017

**Abstract**
The present work describes the effects of water on Fe-doped nanoparticulate CeO2 produced by flame spray pyrolysis, which is a critical environmental issue because CeO2 is not stable in typical atmospheric conditions. It is hygroscopic and absorbs -20 wt %.

**Engineering Surface Ligands of Noble Metal Nanocatalysts in Tuning the Product Selectivity**
by Lei Ji,Bin Liu, Zhaoli Sui, and Jie He
Catalysts 2017, 7(2), 44. doi:10.3390/catal7020044 (registering DOI) - 28 January 2017

**Abstract**
Nanosized noble metal catalysts supported on high-surface-area support are of great importance for numerous industrial chemical processes to mediate reaction pathways in heterogeneous catalysis. Control of surface area and surface energy of nanocatalysts is a key to achieving high activity and selectivity for specific reactions.
